**Working with the  
states to develop  
cost-effective PV  
policies and  
programs.**

**STATEMENT OF THE SOLAR ALLIANCE REGARDING MANAGEMENT CHANGES**

Our President, Claudine Schneider, has decided to resign from the leadership of the Solar Alliance. As you may know, Claudine joined us at the inception of the Solar Alliance with the goal of unifying the voice of the photovoltaic industry and with the mission of accelerating the adoption of solar energy policy within state governments across the nation. Claudine succeeded in doubling the membership, targeting ten states for the expansion of viable solar programs and built consensus around key policy initiatives such as low income solar and decoupling. We are pleased with the progress made by the Solar Alliance over the last year and we want to thank Claudine for her contributions to those efforts. Going forward, the leadership of the Solar Alliance will be focused on the detailed policy and technical issues critical to the widespread adoption of solar energy in the United States. Claudine is a strong advocate for solar and we are confident she will continue as a vibrant voice in the renewable energy industry.

In the meantime, we are actively searching for her replacement, and the Board has targeted July 1, 2008 for a decision. If you have any questions regarding this situation, please contact Steve Chadima, Chairman, at 949-412-7333, or [steve@energyinnovations.com](mailto:steve@energyinnovations.com).
